OTTAWA, Ontario, Jan. 9, 2018 /PRNewswire/ -- Mitel® (Nasdaq:MITL) (TSX:MNW), a global leader in business communications, announced today that independent research firm Synergy Research Group has confirmed its position as the #2 unified communications as a service (UCaaS) vendor worldwide, coming within one percentage point of the #1 market share position based on subscribers. This news is another major milestone in Mitel's rapid emergence as a global UCaaS company. In the third quarter of 2017, Mitel also reached the one million subscriber mark for worldwide cloud subscribers.

"In today's cloud-driven world, offering communications on an as-a-service basis has never been more important or relevant," said Mitel CEO Rich McBee. "Mitel's emergence as a UCaaS market leader, accelerated by the acquisition of ShoreTel and its UCaaS solution, was perfectly timed with the market's growth and migration to the cloud-based technologies driving customers' digital transformations. This recognition is an extraordinary way to close a transformational year for Mitel."

Mitel provides organizations of all sizes with cloud communications solutions combined with productivity and team collaboration applications, enabling businesses to work more effectively and better serve their customers.
