**SUPPLEMENTAL PROXY MATERIAL  
FOR THE  
ANNUAL MEETING OF SHAREHOLDERS  
TO BE HELD ON MONDAY, MAY 15, 2017**

May 4, 2017

**TO OUR SHAREHOLDERS:**

On April 21, 2017, Mitel Networks Corporation (the "Corporation") filed its definitive proxy statement (the "Proxy Statement") in connection with the Corporation's Annual Meeting of Shareholders ("Annual Meeting") to be held on Monday, May 15, 2017, and mailed the Proxy Statement, the form of proxy and its Annual Report on Form 10-K for the year ended December 31, 2016 to shareholders.

On May 2, 2017, the Institutional Shareholder Services ("ISS") issued a report (the "ISS Report") relating to the Corporation's Annual Meeting recommending that the Corporation's shareholders vote in favor of all of the proposals included in the Proxy Statement, except for Ordinary Resolution No. 1 and Annual Resolution No. 3. Ordinary Resolution No. 1 in the Proxy Statement for the Annual Meeting seeks shareholder approval of the Corporation's 2017 Omnibus Incentive Plan (the "2017 Plan"). Annual Resolution No. 3 is a non-binding advisory vote approving executive compensation. These supplemental proxy materials are filed with the Securities and Exchange Commission (the "SEC") and securities regulators in Canada and made available to our shareholders solely for the purpose of providing additional information to shareholders in connection with addressing the ISS concerns with respect to Ordinary Resolution No. 1 and Annual Resolution No. 3.

The ISS Report stated that in its analysis of Ordinary Resolution No. 1, ISS considered multiple positive and negative factors within three pillars: estimated cost, plan features and equity grant practices. Based on its analysis, ISS recommended a vote against Ordinary Resolution No. 1, primarily as a result of its conclusion that, under ISS's methodology, the cost of the 2017 Plan is excessive; but also because of a concern that the 2017 Plan allows broad discretion to accelerate vesting of equity awards.

In order to address the primary concern identified in the ISS Report, the cost to shareholders, the Corporation's Board of Directors has approved an amendment to the 2017 Plan to reduce the number of Common Shares which may be issued under the 2017 Plan to 9,000,000 shares from 10,000,000 shares. Based on our historical grant practices, we do not believe this revision will have any impact on the type or mix of equity awards that we grant to our officers and employees. As a result of the amendment, Section 3.4(a) of the 2017 Plan will now read as follows:

---

**“3.4. Total Common Shares Available/Share Limits.**

- (a) Subject to Section 3.4(b), the aggregate number of Common Shares that may be issued for all purposes pursuant to the Plan must not exceed 9,000,000 Common Shares. No grant may be made under the Plan if such grant would result in the issuance of Common Shares in excess of the above-noted limit. From within the aggregate number of Common Shares above, the aggregate number of Common Shares that may be issued for purposes of the grant of Incentive Stock Options pursuant to the Plan must not exceed 9,000,000 Common Shares.”

With respect to the second factor identified by ISS and described above (concerning the administrator’s right to accelerate the vesting of any award type, beyond cases involving a change in control, death or disability), all grants under the 2017 Plan will have specific minimum vesting provisions. To date, the administrator (which is the Corporation’s Board of Directors) has not accelerated the vesting of any award type under any of the Corporation’s compensation plans, and the Corporation does not currently contemplate any such acceleration. Based on, among other things, input from the Corporation’s outside legal counsel and the independent compensation consultant retained by the Compensation Committee, the Corporation believes that the provision of the 2017 Plan regarding the administrator’s authority described above is prudent and consistent with market practices. Accordingly, the Corporation has determined to leave that provision in the 2017 Plan.

Shareholders are now being asked to approve the revised 2017 Plan as Ordinary Resolution No. 1 and may vote for the revised 2017 Plan or against it. With the reduction in the number of Common Shares issuable under the 2017 Plan, the Corporation believes that ISS will recommend in favor of the approval of the revised 2017 Plan.

No changes were otherwise made to the 2017 Plan, and no changes are otherwise being made to Ordinary Resolution No. 1 or any other proposals in the Proxy Statement or the proxy card for the Annual Meeting, as filed with the SEC and previously delivered or otherwise made available to our shareholders of record as of April 21, 2017.

In addition, ISS is recommending against Annual Resolution No. 3 in its ISS Report, the advisory vote on executive compensation, contrary to the Board’s recommendation. In opposing Annual Resolution No. 3, ISS focuses primarily on the modified single-trigger cash severance provision in Steven E. Spooner’s employment agreement that has been in Mr. Spooner’s employment agreement since before the Corporation’s initial public offering in April 2010 (and publicly available since that time). This provision provides for a severance payment if Mr. Spooner voluntarily terminates his employment with the Corporation, with or without good reason, within a certain period of time after a change in control. It is ISS’s policy that if an agreement with a named executive officer is amended, and that agreement has a provision that is inconsistent with ISS policy, such provision should be amended as well. The amendments made to Mr. Spooner’s employment agreement were not considered material by the Board and Compensation Committee. As a result, the Board and Compensation Committee did not believe it was in the best interest of shareholders to renegotiate the historical provision in Mr. Spooner’s contract because he would reasonably expect to receive compensation for that change. Mr. Spooner has been an integral member of our senior executive team and instrumental in the growth of the Corporation for more than 13 years, including the Corporation’s initial public offering (2010), various acquisitions including InterTel (2007), PrairieFyre (2013), Aastra (2014), and Mavenir (2015), and numerous financing rounds during that period (including most recently in March 2017).
